**www.yarrowcreekranch.com**

Spring has sprung and it is time for the Yarrow Creek and Gurney bull sale. Our families set forth an impressive set of Angus bulls on offer today. Each of our herds bring you various genetics that will surely suit your needs, from performance bulls for cows to wonderful calving ease genetics for your heifer pasture. In reading the footnotes I see Dennis and I talk about our cows. We mention "beautiful" udders and "good" feet. I would say we strive hard for this. We feel all these bulls will perform well and show a disposition that makes them easy to handle. Pail feeding and being right next to the barn helps. The purebred cattle business remains a year-round commitment, for us to stay on top of good AI genetics and HERD bull picks, so that we can provide "progressive genetics" for you. AND, what would do without the help of family & friends, Kids and Parents, who show up to help on those big processing days. The food & drink and conversation afterward is fun too!! Thanks for your support and allowing Dennis and I to follow our passion full circle year after year. Remain positive thinking and we will all get through this pandemic that has consumed the world. Be smart, stay safe. Visit us on the farm before the sale and receive a \$200 credit.

Visiting Family 2020!

## BULL MANAGEMENT

### Yarrow Creek Farm & Ranch

We now use "LONG RANGE" with a noticeable improvement on gain come fall. We also pre vaccinate and use Quiet Wean nose tags prior to weaning with fantastic results. Bulls were weaned AUG21st,2020 and gradually introduced to a oats/barley ration. We slowly introduce them to a pellet ration from BULLSEYE FEEDS developed specifically for growing, and at all times are provided free choice hay and lots of straw. We are very happy with the development of the bulls on this pellet ration. After the sale, bulls are slowly weaned off of pellets and provided 100% of hay, ready for breeding.

Box 1916, Fort Macleod, AB T0L 0Z0

Our family is happy to welcome you to our 9th Annual Bull Sale!

Gurney Land & Livestock has always been a family run farm, but as our kids get older, they are becoming increasingly involved in bull preparation, day-to-day work and now even ownership.

We've both added some Red Angus to our herds, with the first one for sale this year! Red or Black, heifer bulls or performance herd bulls, we have a great selection for what you are searching for.

We always look forward to visiting with you, but this year especially we look forward to seeing and visiting with you. We don't know what COVID restrictions will be in place on Sale Day, so we encourage you to come to the farm for a safe, "socially-distanced" tour of the bulls and their mamas. You are welcome any time prior to the sale, so please don't hesitate to give us a call to set up a time to walk through the bull pen at your convenience, or if you have any questions about sale procedures as the sale gets closer.

We are thankful for our customers, our neighbours and friends, for your trust and confidence. We strive to earn your repeat business by providing the best genetics possible and customer service to match.

## BULL MANAGEMENT

### Gurney Land & Livestock

All cows are run under commercial conditions, meaning the calves get no special treatment like creep feed and the cows are wintered on pasture. The bulls were weaned on September 13th and are started out on a ration of alfalfa silage and timothy hay. We then include in the ration a pellet ration from Bullseye Feeds for the growth and development of the bulls.

Check out all the **BULL VIDEOS** on each of our websites!

## POST SALE BULL DEVELOPMENT:

We will winter your yearling bulls FREE OF CHARGE until APRIL 1, 2021. After that, feed cost of \$3.00 per head per day will be charged. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

## INSURANCE:

**Stockmens Insurance :**

**Cheryl Brown – 403-601-3460**

## DELIVERY:

We offer FREE DELIVERY within 200 km. of home; extra mileage will be at cost. Take your bull home sale day and you will get **\$100** off the purchase price.

## ANNOUNCEMENTS

Announcements sale day take precedence over the printed material.

## INDIVIDUAL BULL DATA

Weights, scrotal measurements and semen test

Sheets will be available sale day.

## REMINDER TO BUYERS

- All bulls will had there 2nd shot of Fusaguard for prevention of foot rot
- All current weights will be posted sale day
- All bulls will be semen tested prior to sale day
- No bulls have been sold prior to this bull sale
- Bulls taken home sale day; buyers will get \$100 off per bull.

## CALVING EASE

<b>1 star</b> ★	means a bull is recommended to be used on cows
<b>2 stars</b> ★★	means the bull should be used on cows or larger type heifers
<b>3 stars</b> ★★★	means there should be few problems when using these bulls on first calf heifers.

Remember to take into account your own cow herd management, genetics, environment, feeding conditions, etc. They will have a BIG influence on your birth weights.

Topsoil always got the job done. Now home to a Waygu herd in BC, his feet and character remained solid over the 4 years we had him. Averaging 89LBS on heifer calves and 92LBS on bull calves, his grand sire "SAV Topsoil 4354" is owned with Alta Genetics and picked in 2015 for "power, sheer thickness and performance, combined with calving-ease, phenotype and maternal strengths". Grand dam notes "blessed with striking femininity, superb udder quality and abundant milk". I rest my case.

A 2017 purchase that we will miss having around. The ever popular SAV Renown 3439 grandsire has loads of progeny working. (His dam is the #1 income producing cow in SAV history!!). Generation was "The biggest hipped bull and he is easy calving" in the Johnson Livestock 2017 sale. His dam is "a picture perfect" animal according to Dave and Andrew. You'll want progeny from him.

On a small note: I found Topsoil and Generation to be very similar in type. They remained solid breeding bulls here at Yarrow Creek.

Rickards Red just keeps getting better! We now have some of his females milking and with perfect udders and lots of milk, could not be happier. The daughters are square, thick and correct females with good feet under them. That's what we expected coming from the dam Red Bar E-L Leading Lady 7C; awesome udder, perfect feet, perfect package. Right Turn was a calving ease performance bull who is co-owned between Triple S, Bar E-L, Welsh Prairie Red Angus, Janzen Red Angus and Allison Red Angus. So far, the sons at our place combined with Allison farms birth weight are averaging 86 lbs on males and 78 lbs on heifers. He is just so phenotypically correct too.

DMM CREED 75W  
**BLACK WHEEL AUBURN 25B**  
RED WHEEL AUBURN 59W

We searched for a power bull and we found this Red U2 Unanimous son at Wheelers Stock Farm. He is an outcross bull with a black dam sired by the Canadian Show Bull of the year in 2011 DMM Creed 75W. The sire Red U2 Unanimous 113B was one of the high sellers at U2 ranch at \$51,000. With the combination of Unanimous and Creed, nothing but power, but the best part is both pedigrees come from awesome cow families; U2 Anexa and Larkaba. That is what is the most important here at Yarrow Creek. Don't be fooled, these Unanimous sons will have some punch. To top it off, Unanimous has next to the best feet we have seen on a bull.

After seeing some of the females produced from Harvester 103C, we thought we could add him into our program to turn up a little performance. 103C is in the top 1% for WW, YW and also Carcass traits. Surprisingly he is in the top 4% for MCE which means very little assistance on 2nd calvers. We think he is a good fit for our program, do take advantage of the 2 offerings in the sale.

- Beautiful Crackerjack son in a small frame package, clean sheath, good scrotal and moderate shouldered. Calving ease bull in the top 5% CE, top 4% BW. Dam's first calf and she did a great job. Looking at her pedigree we have the granddam, great grandam still in our herd that's how good this female line is.
- Last years maternal brother went to Saskatchewan, Perry Sawchuk

- Nice combination of the dam 1766 who is in the top 10% for CE, BW with this top growth sire LWNB Harvestor. You end up with this calving ease growth giant in the top 10% for WW and YW. At time of writing this footnote he was the 2nd heaviest bull weighing 1266 lbs and also the 2nd highest gaining red angus bull at 3.18 lb/day and the 2nd highest WPDA bull at 3.16 lb/day. You want growth with a touch a calving ease, here is a long bodied smooth fronted good hipped bull. Believe me, he will stand out on sale day. WW Index of 105 and YW Index of 113; 3.16 WPDA 3.38 DG

- Very similar to his brother 12H. Maybe a little YW growth as he is in the 8%. Also, one of the top gaining bulls on test. Can't recommend him as a heifer bull even though he has a 75 lb BW. Weights from Harvestor calves tend to follow the dam in this bull. But I will give him 2 stars. Very smooth fronted and larger framed bull. This guy will add the extra pounds to a weaning program anywhere.

Future bull buyer "Grandson" checking it out!!

- Hatfield is a moderate framed bull with a good hind quarter and clean sheath. This bull has kind of a neat pedigree. Rickards Red on the top side and Oasis on the bottom side. We just love our Oasis cow. Wish we would have gotten semen on him; talk about deep bodied, perfect udders and good feet; many people touring our place this year admired the Oasis daughters. Combined with the exceptional females from Rickards Red you will want to build a herd around this guy.
- Maternal brother sold to Ken Gruninger

- Hoover was the #1 Weaning weight bull holding an index of 117 with a actual weaning weight of 816 lbs. (no creep feed). He does have growth as he is in the top 9% for WW and top 15% for YW. 3rd highest gaining bull weighing in at 1256 lbs at catalogue time. On the dam side calves have an avg BW of 82 lbs. He has a very good hip on him. Check out the video
- Sons have sold to Laury Orr and Midway Cattle Co.

- This fella is smooth as they come. Nice smooth front end, top end and good scrotal development. Humboldt is a true Crackerjack son with a CE in the top 8%, BW in the top 10% and with a YW in the top 20%. On the dam side, a beautiful Redemption cow coming off of our Princess line of cows whom produce females that are the complete show type. Beautiful udders and very nicely made all around.

Horris is a cracker. Wide topped Werner Flat Top lineage, sound footed & thick from front to back. Top EPD's, both calving ease and gain-ability. Use him on heifers all day long & bring your 800# calf home in the fall.

*Linda's Pen Comments: The entire pen looks good. These bulls all put on the pounds with awesome ADG, we are liking the Bullseye Bull ration. The black's have beat the red's in average daily gain this year with YCF 59H reaching a 4.11. Always fun to have a little competition. This will be my final calves from Generation and Topsoil as they move on to work other herds. We do not push our bulls and have NOT had a disappointed customer.*

The heaviest bull in the offering. A beefy big rascal here. He holds a 4.11 #/day gain. #1 in pen of reds & blacks this year. A sound growth bull with great scrotal size & milk EPD. We are happy with the strappin calves this dam brings home every year in the fall, a model Dwajo cow.

A smooth shouldered TOPSOIL calf packed with power but nice!! I remain liking his mother, a solid Royal Repetition daughter who always brings home a tank of a calf come weaning day. You will not be disappointed in owning C. Husker (our Nebraska connection).

Bringing cows home from fall pasture.

Nice front end, big spring of rib, big wide top and ending with an impressive square butt. A cow bull. Moderate bodied, easy doing Jindra Double Vision product, Hardy's dam 1507C is from 205Z, 67H's dam above. Both well liked and in the herd.

Nice package here, likeable Generation bull with extra volume and mass to get the breeding job done. Out of a young "15" cow. Jindra Double Vision was the best-all around bull on test on our 2013 tour to Billings. BEST footed too. Recommended for cows.

My only "Fiord" son in the sale. Fiord is a "SAV Thrive" son featured in the Shaff 2016 sale. Easy fleshing sound package in a moderate frame. His Grand Dam SAV Erica 9448 is an outstanding brood cow. This young Stornaway 62F is a model YCF angus mother that will be here long into the future. I sold my 1st heifer from my herd sired by Fiord, YCF 94F, at the "Tradition with a Vision" sale in fall of 2020. He throws beautiful females. I kept all the rest he produced for my own replacements.

My youngest bull on offer but don't let age defer you. Halton has extra length, thickness and nice extension through his front. You'll be sure to appreciate how he travels. Both sire and dam are super stock. Grand dam Dwajo 33B is a good milk producing cow and well liked in the herd. Recommended for cows.

## - TERMS & CONDITIONS -

**Terms of Sale:** The terms of the sale are cash or cheque, payable at par at the sale location. No release of livestock will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for which payments have not been received prior to departure time.

**Certificates of Registry:** A certificate of registry will be duly transferred to the buyer by the breeder for each bull after complete and full payment has been made.

**Cattle Inspection & Identification:** CCIA tags will be in all bulls. All bulls will be available for inspection prior to the sale.

**Fertility:** All yearlings will be scrotal measured and palpated prior to the sale and all yearling purchases will be semen tested prior to delivery. All bulls will meet or exceed breed standards.

**Breeding Guarantee:** We guarantee to provide you with a sound breeding bull, capable of passing a breeding soundness evaluation performed by a licensed veterinarian. In the unlikely event of any dispute, the regular terms and conditions that are standard with the Canadian Angus and Canadian Simmental Associations shall apply. Customer satisfaction is paramount to us.

**Delivery of Bulls:** We will offer free delivery within 200 km. of home; after that at cost. Delivery on the yearlings will commence early April unless prior arrangements have been made with the seller.

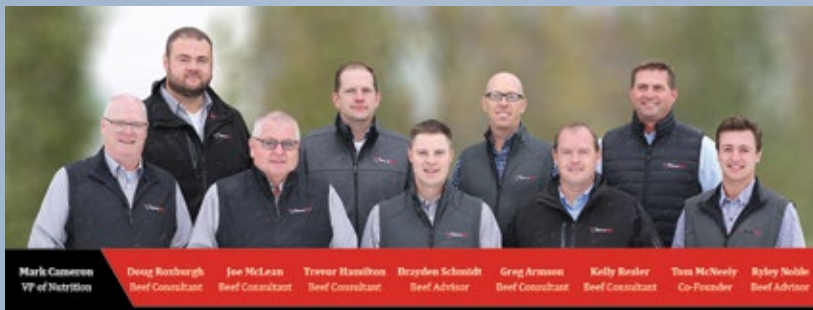

**Post Sale Bull Development:** We will winter your yearling bull purchases free of charge until April 1, 2020. After that, feed at cost of \$3/head/day will be charged. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers' risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

**Bull Insurance:** Ownership risk to the purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available at the clerk's desk from our appointed representative on Sale Day.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of the buyers; neither the sale staff nor the owners assume any responsibility in this manner and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

**Announcements:** Any changes from information in this catalogue will be announced from the auction block. Such changes will take precedence over the printed matter in the catalogue and therefore buyers are cautioned to pay close attention to any such announcements.

Return to:  
GURNEY LAND & LIVESTOCK  
Box 1916  
Fort MacLeod, AB T0L 0Z0

It is such a pleasure working with Yarrow and Gurney on their Nutrition program. Even though both ranches have different feeding programs, their goals are the same to bring a quality product to their customers.

The feeding program is built to maximize forage utilization and gut health. The bulls are developed on grass with their moms and then moved onto a balanced diet that

promotes lean muscle growth. Organic minerals are used to ensure proper immune function and overall health. The bulls' nutritional health and development and the entire cow herd are of utmost importance and are continually being tweaked to meet environmental and seasonal conditions. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!
