BORDER BUTTE BULL SALE

Welcome

THANK YOU FOR JOINING US AT HOME *ON THE RANCH* THIS YEAR!

Not the way we envisioned the direction of our sale at this time, but none the less excited.

So many things in life are out of our control. We know in this sector that markets, politics, weather, borders and more have always had an impact on our livelihood. These “things” always impact the way we maintain and carry forward with our norm, or transition into a new norm.

While I’m not going to give the recent pandemic any more of our attention than its already taken we have had to switch things up to “Roll with the Punches”.

So while we had to make an abrupt decision and changes to our norm, our philosophy stays the same. You will just need to see these things from a different location. Our Yards, instead of the Auction Yard. And while we thank the Feeding Company whole heartedly for the 20 years of steadfast service, the decision had to be made to change locations.

In our attempt to showcase our sale offering in the best way possible and in turn making your experience the best possible we invite you to come down and experience our new direction.

We realize a purchase for a breeding program is not to be taken light hearted so over the years we have travelled most of Canada as well as into the States to acquire the best we can to offer the best we can to you. These purchases have always included seeing the maternal line of each herd bull when possible. With the ideals that it takes a strong female to raise an influential male. We are proud of our cow herd and what they represent; real world, longevity, sound, prolific, well mannered hard working females. To the extent that one of the best bulls we’ve used to date (Border Butte Blaster 305E) comes from the 20 years of planning searching and achieving.

We would be honored to help you with your plan, search and visions. Please Come to Coutts, and join us on the 21st.

Cindy, Dale & Roan Bosch

A WORD FROM CASTLEROCK

Welcome to the 2020 Border Butte Bull Sale, Rollin with the punches is not a new term for those of us in the agricultural industry, you name it we have overcome the odds every time giving a new badge to wear on our sleeves. One thing that stays the course is the crew at Border Butte, they have a goal in mind in what they need and expect out of their cow herd along the way. You will not find a harsher critic on the cows and their ability to produce and if it’s not right, they find their way to town. Herdsires represented continue the same philosophy, striving for genetics that will produce pounds in some of the harshest climates around while delivering calves that are born easily with the will to get going. Going through the bull pen you will find a variety of types through the bulls yet great consistency within a sire group.

Should you have any questions regarding the bulls on offer feel welcome to reach out to us at Castlerock Marketing we are glad to help with your selections.

See you sale day!

Shane Castle

DIRECTIONS TO THE RANCH

Signage will be posted on HWY 501

1. Coming from the west - From Milk River East on HWY 501, approximately 20 miles. to HWY 500 (Writing on Stone Park Signage)..... see below #3
2. Or from the east - Heading South of Foremost on HWY 879, approximately 19 miles south to HWY 501 turn west travel 12 miles to HWY 500 (Writing on Stone Park Signage)see below #3
3. Turning South on Hwy 500 (towards Writing on Stone Park Entrance) continue East past the park entrance signage remaining on Secondary HWY 500 (gravel road). Road will curve south after an overhead bridge and will come to a T intersection (9miles from Park Entrance sign) , Turn East(Left).

After 2 miles turn south on RG RD 12-0 travel south following the road down to an East(left) curve that will continue East to the Border Butte Bull Yard. For those coming from Southern Saskatchewan HWY 13 becomes HWY 501 in Alberta.

WELCOME TO THE BORDER BUTTE ANGUS SALE!

The Perlich family and staff are thrilled to conduct the Border Butte Angus Bull sale this year at their ranch. Dale, Cindy & Roan are meticulous when it comes to their Black Angus cattle operation. They strive for superior genetics and overall herd health. Their hard work, ambition and passion for their cattle is evident in this year's line up of bulls. Purchasing a Border Butte Angus Bull will result in productivity and performance in your herd. Bid with confidence, knowing you are putting quality genetics into your operation that will pay for years to come. We look forward to working with Dale, Cindy & Roan this year to provide you with top quality bulls at this year's sale.

Respectfully,

Management and Staff, Perlich Bros Auction Market

COVID POLICY

With the recent changes to Covid 19 protocol we are aware that regulations could change at any time. Plans have been put in place to bring the sale to you live as well as online in the event any drastic changes take place. With that said, we encourage and invite anyone to come to the ranch at any time from now until sale time to view the offering. We can and will be available to tour anyone at their convenience. While we hope to host the sale as normal, we want to be prepared for any obstacles. Don't hesitate to call.

IMPORTANT WINTERING & DELIVERY INFORMATION

With the change in sale dates we also need to answer some question in regards to wintering of the bulls. All yearling bulls will be taken back to Border Butte, where they will be developed and semen tested in mid to late February. The 2 year olds will be semen tested prior to sale day and will need to go home with the new owners. In mid March we will call owners and make arrangements for delivery of the bulls and while we realize not all producers can take their bulls at that time those bulls will remain at Border Butte until the usual time of delivery. Purchases are to be settled for on the day of the sale. Unless alternate arrangements have been made with Border Butte for other payment options. Call Dale Bosch 403-647-4392.

SIGHT UNSEEN PURCHASES

If you wish to participate but are unable to attend the sale, please feel free to call us to take advantage of our 100% Satisfaction Guaranteed-"Sight Unseen Purchase Plan".

INSURANCE AGENT

Larry Toner 306-834-7652

TERMS & CONDITIONS

All Bulls sell under the standard terms and Conditions set forth by the Canadian Angus Association.

GUARANTEE: calendar year bulls will return home and be semen tested and evaluated by a qualified vet. 2 year bulls have been semen tested and evaluated. Bulls that fail to be satisfactory breeders will be replaced or credit given on purchases or replacement from the seller. They should be returned to the consignor in good condition and properly cared for so they can be re-evaluated. Border Butte is responsible only to the purchase price of the bull in question. Each animal becomes the responsibility of the purchaser at the fall of the hammer.

INSURANCE: We recommend you insure your purchase as purchaser assumes responsibility at the fall of the hammer.

An insurance agent will be available on Sale Day.

Larry Toner 306-834-7652

HEALTH: Animals are from TB and Bangs free area. They are examined by a qualified veterinarian at semen testing time.

TERMS: Terms of sale are cash or cheque payable at par in Canadian Funds to Sale Clerk on sale day. No animal will be released without satisfactory settlement.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcement from the Stand at sale time and such correction shall take precedence over the printed matter in this catalogue.

SEMEN INTEREST: We reserve the right to draw semen on any catalogued bull at our expense, and buyers convenience.

305E sold through the 2018 Spring bull sale to Valley Blossom Ranch as high selling Bull. A direct son of Bruns Blaster, a bull who we have had extreme luck with. The twist this Bull adds is the maternal side of the pedigree. 6 generations have been raised through our family and traces back in its origin to the Miners Coulee herd that was located just down the road from the ranch today, Aden AB. The quality and longevity of this part of his pedigree is what excites us the most. The udder quality and hoof structure are the strongest in the herd. The resulting progeny from this bull have been everything we could ask for, Short gestation which is beneficial for light birth weights in first calving heifers. With 144 calves registered to the association from the two herds and managed similarly on hard grass, his numbers don't lie with his offspring averaging 78lbs at birth. Bull calves averaging 761lbs at weaning. His well received sons were the highest averaging sire group. This second set are testament to what works, a carbon copy of last years calves with that stout, big middle, soft made, proud, and sound attributes we strive to bring into the pen.

Easily the most prolific Bull to walk the hills. Commands attention from absolutely every angle. Attention to the details of calving ease, maternal traits, docility, performance have been an easy deal when this guy came to the herd. His daughters have easily become a cornerstone in the herd while his sons have always been received well and turned back great comments from those who have bought. A bull who's progeny come easy and don't need to be sorted into a lighter weight package at weaning because they quickly catch up with the rest. At almost 8 years of age he has feet that have never been touched and could be the poster for what a herd needs. He goes through his breeding season, and works hard from start to finish and loses very little condition. Easily the go to sire for us for many seasons. Semen sold out in New Zealand last year in 30 days with the first progeny hitting the ground this summer.

The result of a road trip to Manitoba in 2019. The Madsen family has purchased and been through our herd a number of times over the years and that spring as I made a stop to see the bull pen. "Tom" caught my instantly. Just a March 2 year old at the time he expressed so many attributes that screamed Southern AB. bound, but it wasn't until I saw his dam in pasture with her 2 week old calf at side that the decision he need to come west was made. He made 1 year in the heifer pen with extreme success resulting.

Purchased at Crescent Creek in the spring of 2019. A program that is deep in performance, maternal traits, and sound structure. This being his first set of calves to hit the ground. They came easy and unassisted. His calves have a smooth refined front and have expressed the ability to gain and keep up with their contemporaries when it came to development and growth.

the end of an era, "Rage" has been one of our go to herd bulls that sees the breeding season to the end because he offers so many things, from low birth weight to big volume calves that come off in the fall. His reign here was completed this spring as a foot injury from the previous fall cut his season short. Therefore these may be the last set of calves to sell, but in trademark Rage style he went out with a bang! You'll find them easy with their big expressive hip, clean sheath easy doing fleshing ability and demeanor. While he will be missed you won't miss his calves this year in the pen.

Attractive has been a good fit here with his ability to add growth, solid foot, deep barreled, attractive females and bulls. His first sons that sold in 2018 were a well received group and though we didn't use him the next spring we were quick to kick ourselves as each calf born made the replacement pen, in both females and bulls. We were too quick to dismiss that while he wasn't the heifer bull we sought out at the time, his birth weights were still modest and we couldn't dispute his ability to add flesh and a trademark look while filling in all the requirements that we need in the industry. His role as an AI sire on the mature females has left us an undeniable outstanding set of females that now have their first calves tipping the scales heavy and with his attributes to give them a strong future.

Dam is one of a kind, literally being the only daughter of the Triple Stack bull after his early exit here. She has been a tremendous asset here with her ability to throw a low birth weight in everything she is bred to. This calf out of Attractive is bound to be the head of the class this spring with so many attributes needed in the industry. He's easy to look at, good tempered and a great backing on both sides of the pedigree.

Maternal Brother to last year's high seller. This being this dams second calf, I think it's obvious she has a long, bright future here. The second time winner with another moderate birth weight smooth sided, expressive calf. Same great uddered dam that is backed by many generations of maternal power that are also responsible for a number of top bull pen picks. Last year's son sold to Abound Livestock.

Another year using Torque and again he hasn't disappointed. This calving ease potential he throws is also backed with an eye appealing package with shape and performance out of a first calving Rage daughter. The Torque females will calve her for the first time in the next few months, and they are a tremendous group.

Entice was a new Venture this year bringing together calving ease and performance. We were pleasantly surprised by his ability to throw calves that kept up with their contemporaries in the growth department. This guy is out of a calving ease first calver that is moderate but powerful, living true to the saying great things come in small packages.

Black Loch recreated describes this calf best. He gives me chills as it's like looking at his sire when I appraised him in Illinois in the spring of 2014. And with numbers like 79lbs birth and 743 weaning show calving ease that can grow and enter the weaning pen at the same pace as heavier birth weight contemporaries is attainable. His first calving dam with the phenotype of a show female, and by the looks of this guy their ability to produce performance back calves. Such a powerful pedigree behind this guy.

Entice and Earnan, making a nice cross in this calf from a first calf heifer. With a competitive performance package. Dam is a super attractive, feminine female that has a boat load of great sires in her pedigree that resonate the performance, functionality, and longevity that the breed brings to the table. All this in her first year.

Dam is maternal sister to our Earnan bull that sold to Lane Bellew. One of the more prolific cows that walked here to the tune of 12 calves born and many retained females. So if longevity is something you're after this is one of those lines to follow. This guys dam being a first calver made sure to solidify her stay bringing in this guy. Light Birth weight to a real nice weaning and has a sharp look.

These Blaster 305E calves have a "trademark look" to them, making them easy to pick out of the pen. Generally, the first ones to make anyone's list. This rugged, soft made, hairy son will fit many people's check list, and backed by a sweet young dam who started things on the right track with this guy.

The smooth shape of the Outside sire can be seen in these next two calves. Nice shaped head and a low birth weight would make them a candidate for use on heifers. Dam is first calver, coming from the Eve line doesn't hurt either.

An embryo resulting from one of the oldest cows in the herd, dubbed "Appy" While she has mainly given us females the odd bull calf (3 out of 15) have generally made a statement. This calf the result of a bull we utilized through AI, owned by a good friend who's description of him was "best feet I've seen on an Angus Bull" And while we make breeding decisions on so many traits, this is one of the most important to us. Because a great animal is only good if he can last long enough to influence your herd.

Going it old school with some of the solid old genetics that have put us on our track. Dam, while gone has put 14 calves on the ground here over her short stay, leaving us early due to injury. She even made a cameo in the show ring, placing first in class in Agribition. These types of bull calves have been her strong suit. Brothers, some being full embryo sibs have sold to Mike and Susan Page, Weiss Ranching, Mckelvey Farms, Short Grass Ranches, and Seven Persons Grazing.
