www.yarrowcreekranch.com

Welcome to our 12th annual sale. Another year of luck, just enough rain, just enough hay. We have a very consistent set of bulls on offer. We continue to select using EPD's from gain ability to calving ease to superb maternal traits AND calm dispositions. Something to be said about calm, we walk in the pens and spend time around our cattle every day. We believe it is our obligation as purebred breeders to provide you, the customer, with trouble free genetics that positively affect your profit margin. It is also important that we sell you a bull based on what you need, so don't hesitate to ask for our help in your selection, we know the parents. These bulls all pass semen tests and you can trust we stand behind our product. Dennis and I want to say the bulls we offer get better every year, it is a subjective thing. They sure are impressive this year-2018!!!

The reason why? A few seconds while sorting cows in the alley on a dusty hot day in July, I stop and ask "why are we doing this" and as 111Z and her bull calf 95E goes by, a favorite pair, the question is answered, "it is our passion for cattle". Selecting sires, awaiting the new born calf and what she brought us this year, watching them grow over the summer, selecting the keepers in the fall, it is enjoyable. Along the way we are then so lucky to grow relationships and make new friends with all you people!!

The bulls have been videoed for your viewing on our website. Or...you can search Yarrow Creek Ranch 2018 on youtube

Your welcome to view the bulls at the farm before the sale or stop in early sale day to walk them around before you select. Please stay for hospitality after the sale.

 Check out all the **BULL VIDEOS** on each of our websites!

GURNEY LAND & LIVESTOCK

Wes & Carolyn Gurney

Ph: 403-553-3856 Cell: 403-308-2473

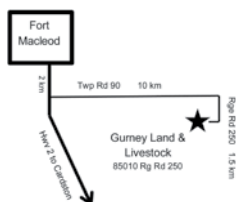

Ranch Location: Fort Macleod, Alberta

Box 1916, Fort Macleod, AB T0L 0Z0

As we prepare for our 6th Bull Sale, the first and most important thing on our minds is to thank our customers. We know there are many, many great options for you to choose your bull power from. Your continued support has made these 6 years possible, and for that we are grateful.

This year has brought with it the excitement of a new addition, Hamilton Hot Lotto, the sad farewell to our Iron Mountain and Hoover Dam herd sires, and the weaning of a great set of calves. Through it all, we continue to focus on bringing the best genetics and EPD bulls to the hardworking ranchers of southern Alberta. You can buy with confidence knowing our bulls have already passed their semen test and are ready to go to work for you.

We want to wish all our past customers a successful calving season (and warm weather!) and we look forward to seeing you for a visit at the farm and on Sale Day.

BULL MANAGEMENT

Yarrow Creek Farm & Ranch

The sale bulls were raised on milk and grass (no creep). Bulls are weaned first week in September and introduced to a low % grain (oats/barley) ration and free choice hay. Ration is gradually increased for growth and gainability. Lots of straw at all times.

HERD HEALTH

The Fort Macleod Veterinary Clinic is pleased to provide Veterinary services to Yarrow Creek Farm and Ranch. They have a well-developed herd health program. All breeding females receive an annual vaccination with the Express line of vaccines ensuring some of the best protection against IBR, BVD Type 1 and 2, BRSV and PI3 as well as a complete scour vaccination protocol. Calves receive vaccinations at birth (Inforce) and at weaning calves are properly vaccinated with Pyramid 5 Presponse and a 7way Clostridial Somnus vaccine. Breeding females are boosted prior to breeding with the Express line of Vaccines. The herd receives routine deworming and ectoparasite control. This year all Bulls entering the sale will have received at least one dose of Fusoguard to aid in the reduction of Foot Rot. You can be confident that the Bulls purchased from Yarrow Creek Angus come with a solid health foundation.

Dr. Bruce Kostelansky; DVM

POST SALE BULL DEVELOPMENT:

We will winter your yearling bulls FREE OF CHARGE until APRIL 1, 2018. After that, feed cost of \$2.00 per head per day will be charged. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

INSURANCE:

Stockmens Insurance
Cheryl Brown – 403-601-3460

DELIVERY:

We offer FREE DELIVERY within 200 km. of home; extra mileage will be at cost. Take your bull home sale day and you will get **\$50** off the purchase price.

ANNOUNCEMENTS

Announcements sale day take precedence over the printed material.

INDIVIDUAL BULL DATA

Weights, scrotal measurements and semen test
Sheets will be available sale day.

We will have fresh cinnamon buns, tarts and coffee from IPM to sale time. Please stay for a visit and refreshments after the sale.

We are very pleased to have the Canadian Angus Association on board to offer CCIA tags for purchase. They will also be available to discuss the advantages of the Ranchers Endorsed programs.

PLEASE BRING YOUR CATALOGUE SALE DAY!

BULL MANAGEMENT

Gurney Land & Livestock

All cows are run under commercial conditions, meaning the calves get no special treatment like creep feed and the cows are on pasture for 10 months of the year. The bulls were weaned on September 20th and Herd Health protocol (below) was followed. Bulls are fed 1% of their body weight of rolled barley and a mix of 2nd and 3rd cut alfalfa silage.

HERD HEALTH

The Fort Macleod Veterinary Clinic is happy to provide veterinary service to Wes and Carolyn Gurney. We are involved with all of the Gurney's operation including breeding soundness evaluations. Currently Wes's bull calves receive a 5 way viral modified live vaccine with Pasteurella and a 7 way Clostridial Somnus vaccine at weaning (Pyramid 5 with Presponse and Fermicon 7). All bull calves have received treatment for both ecto and endo-parasites. Bulls will also have been fully vaccinated with Fusoguard to aid in the prevention of food rot.

After using Redemption in 2015 and having high sellers go to Cornerview Ranch and George Baxter; I really had high expectations for the females. Well I'm delighted; we have Redemption dams that are absolutely fantastic; good milk, feet, udders all packed in a fleshy moderate size. Just like I said back in 2015 after talking with Neil Hueftle (Hueftle Red Angus) in Cozad, NE; who had raised the granddam HXC Jolene R548 and he stated; "sometimes he had wished he had never let go of her. One of the best cows he has ever raised" Well he was right. Redemption's EPD's are still one of the best; he is in the Top 1% & 2% for BW, YW, CE, MCE, and Marbling and with accuracy's of +90% he is a true calving ease performance bull, with awesome maternal traits.

Back in 2014 when we purchased APEX we knew he was a good bull but we didn't know how good. Well after 3 calf crops and females now milking you really find out how good a bull truly is. With his dark deep cherry red color with pigmented feet he passes that on nicely but where he truly has shined is in Calving EASE. He went from a -1.2 BW to a -4.3 BW (Top 5% averaging 81lbs on calves). Also on CE went from a +7.0 to a +12.0 (now top 1%). His Yield grade, Ribeye and Fat are all in the top 10% too. He has ultimately changed our herd to the better.

We had selected a 116B a Mama's Boy son from U2 to carry on the Mama's Boy 167X line as I was really impressed with bulls. 116B is definitely following in his sire's foot steps. His calves are averaging 80lbs and having YW index's of 106; so we know these calves perform. He is also a good carcass bull with EPD's at 8%, 9% & 8% in Yield Grade, REA, and Fat. You don't find many bulls with those kind of carcass numbers in ALL those traits. He's definitely a carcass grade improver.

– TERMS & CONDITIONS –

Terms of Sale: The terms of the sale are cash or cheque, payable at par at the sale location. No release of livestock will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for which payments have not been received prior to departure time.

Certificates of Registry: A certificate of registry will be duly transferred to the buyer by the breeder for each bull after complete and full payment has been made.

Cattle Inspection & Identification: CCIA tags will be in all bulls. All bulls will be available for inspection prior to the sale.

Fertility: All yearlings will be scrotal measured and palpated prior to the sale and all yearling purchases will be semen tested prior to delivery. All bulls will meet or exceed breed standards.

Breeding Guarantee: We guarantee to provide you with a sound breeding bull, capable of passing a breeding soundness evaluation performed by a licensed veterinarian. In the unlikely event of any dispute, the regular terms and conditions that are standard with the Canadian Angus and Canadian Simmental Associations shall apply. Customer satisfaction is paramount to us.

Delivery of Bulls: We will offer free delivery within 200 km. of home; after that at cost. Delivery on the yearlings will commence early April unless prior arrangements have been made with the seller.

Post Sale Bull Development: We will winter your yearling bull purchases free of charge until April 1, 2018. After that, feed at cost of \$2/head/day will be charged. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers' risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

Bull Insurance: Ownership risk to the purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available at the clerk's desk from our appointed representative on Sale Day.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers; neither the sale staff nor the owners assume any responsibility in this manner and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

Announcements: Any changes from information in this catalogue will be announced from the auction block. Such changes will take precedence over the printed matter in the catalogue and therefore buyers are cautioned to pay close attention to any such announcements.

Eurostar must be named after a train, because he's built like one! Not sure why his BW is 100lbs? Apex BW avg's 81lbs and the dam side avg's 77lbs. So take that with a grain of salt. Eurostar did injure his neck at clipping time but I'm sure he will be fine by sale date. He was also one of our top gainers on test too.

Well El Trump just had to *out do* his papa; Barack 420B (Typical US presidential race) whom we sold to Clear River Angus as our high seller back in 2015; but we kept a semen interest. I wish we had more of this progeny to sell. You should see the females, *fantastic!*. Barack was one of a kind with performance packed with maternal qualities and El Trump is not too far off.

Excalibur is almost the same type of bull as 103E but with a little more punch. The dam Priscilla 1106 is a moderate framed cow with a perfect udder and lots of milk. Keep all the heifers sired from this bull. Have you thought about DNA'ing your heifer's to help you in selecting which sire they actually come from? For some, it's a way to build consistency and profitability into their herd.

Sometimes the good ones are last. One of the youngest bulls in the sale. But don't be fooled, these last few younger bulls have to be damn good to make our tough selection process in the fall. Were not one of those breeders that keeps all the bulls; we only keep 40-50%; that's how tough Linda is on selecting. . . Yes, she has final say. Anyway, I digress, Excalibur 17116E is out of one of our best cows 1292Z, a Lauron Jill cow that sneaked away from the Lauron program and has been a star in our program. Only one heifer from Jill to the benefit of our customers. An APEX son, so tremendous potential here.

It is hard to pick a favorite this year but I will have to say it is this guy. I like the sire and the dam equally. He holds an impressive "+120" yearling index, ADG of 4.39, superior structure and free moving frame. Mom (pictured) is the elite Cudlobe Blackcap 1A dam, a top notch productive female and in the top 1% of my herd. He would be a keeper. You will like him. Cow or heifer bull.

Complete package of calving ease and loads of style. A well muscled smooth shouldered bull with good feet and legs. His mother 1313Y helps this Whiskey Jack son lower his birth weight holding double digit calving ease (+12), she is phenotypically correct with a great disposition. Also dam to high seller YCF Wrangler 304A to U2 Ranch. Heifer Bull.

Mother and son both have great EPD's here. High score CWT of +32, YI of 124, ADG of 4.56, BW of 79. Dam 334C maintains a +53WW and a +92 YW EPD. Gain ABILITY!!! What else, it would be hard to find a flaw in him when you walk around him, good mobility, leg and feet structure. He maintains heifer-safe calving ease while still offering big time performance.

Each time I go in the pen I pick a different WJ favorite. Hard for me this year. Expresso shows added volume, capacity and dimension that will show up in your calves. His mother has a BW of 80 and he has a BW of 89. Mother 111Z is in the top 1% of my herd, phenotypically superb, she is an ideal Bandwagon dam with Leachman Right Time (old) genetics. Low BW EPD's. Heifer bull.

Guess who this is in 1971 with her 4H calf? Note the "bare feet"!

------	--------	--------	-------	-------	---------	-------

"For us, it is important that the Angus tag is in the calf's ear when we purchase the calf. The tag gives us the verification that we are looking for. As feeders we will reward the producer when we see that tag in the calf's ear."

-John Schooten, Schooten & Sons Custom Feedyard Ltd.
Diamond City, AB

"We have found that the tags promoted our beef and put our beef in the grocery stores because of the Angus brand."

-Sue Giles, Giles Ranch
Brooks, AB

"We've been using Angus tags for as long as you could buy them. It makes perfect sense to use them."

-Tom Fawcett, Tongue Creek Ranch
Turner Valley, AB

The Canadian Angus Tag Program is the largest branded tag program in the world. The tags visually and electronically identify cattle that are guaranteed Angus. Animals wearing the green RFID tags are a minimum of 50% Angus genetics as they have at least one registered Angus parent. Canadian Angus tags are CCIA approved. Order your tags today and have them delivered right to your mailbox.

We're very excited to offer these Upward sons! They all have lots of performance, big ribbed and full of meat. Great Testicular development, all with super calving ease and maternal qualities built into them. Easy fleshing, good looking cattle. The right kind of cattle to build a herd around!

Hoover Dam continues to sire deep, full of meat power bulls. Besides his amazing daughters he has produced for us, he's also improved the feet in our herd. If you want to produce quality replacements, improve your cattle's foot structure and produce more beef. Then Hoover Dam will do that for your ranch.
