## Welcome

This is where we normally update you on all of the adventures of the year, but this year's welcome will be a bit shorter as the world shut down the day after last year's sale and the adventures for this year were a lot closer to home and a bit more low key than in the past. 2020 had its challenges and it was a year that forced us to think outside the box and adapt to changes on a moment's notice.

One of the things that did stay the same is Becky and Doug were asked to judge a 4-H show, what changed is that they did most of it from the comfort of the living room with all of the heifers being judged via videos submitted by members. The steer portion of the show was judged without the members present and with the steers loose in pens.

On another unusual note we put up our first cut of hay in early July without turning on any form of irrigation! One storm alone brought us five inches of rain. This gave us time to plan our yearly appreciation BBQ to thank all of the people who help make this sale run. With restrictions easing up we had a bit of a twist to our yearly BBQ, our neighbour Tom Machacek born and raised in Taber, faced off against our new vet Corey Davis, recently imported from the Maritimes, in the Great West vs East Grill Master Challenge. Both were supplied a beef brisket and applied their best smoking techniques. All the food was tremendous and at the end of the day the east won out by only one extra vote.

As for an update on fall shows, there were none, so Doug went hunting for two weeks at the end of November. He didn't come back with any game but did bring back a bunch of stories, which seem to change occasionally. Cheryl took those two weeks to enjoy a relaxing weekend at home interrupted only by her full-time job, feeding bulls twice a day, and keeping up on the farm bookwork. Most of you will know that we lost Doug's father, Hank, last March, but we continue to see his influence in our program. Doug's mom Ruth is still living on the farm and as feisty as ever, at 86 she is still happy to cook for a crew (or at least still does it when we ask), but can usually be found knitting up a storm in her rocking chair.

We do not know exactly what the sale will look like this year based on covid restrictions but it will be held at home in a heated facility. All animals will be on display outside the sale barn and the sale will be broadcast on DLMS. The bulls are available for viewing anytime so please give Doug a call or stop by if you would like to walk through. As always, we will have people on hand to take your phone bids as well if you are more comfortable bidding that way. New this year we will have videos of all bulls available by the end of February, a link will be shared on [www.cdlandandcattle.com](http://www.cdlandandcattle.com) and on our C.D. Land and Cattle Facebook page or you can contact us to send you a link directly.

We appreciate all the support of our customers over the past years, always look forward to meeting new ones, and take great pride in aiding you in your purchase for the animals to meet your operations requirements.

Join us Saturday March 13th, coffee will be on bright and early to give you lots of opportunity to view the bulls, lunch at noon and sale starts at 1:00pm. Remember - when making your investment now *Quality Counts* when it comes to selling you calves in the fall.

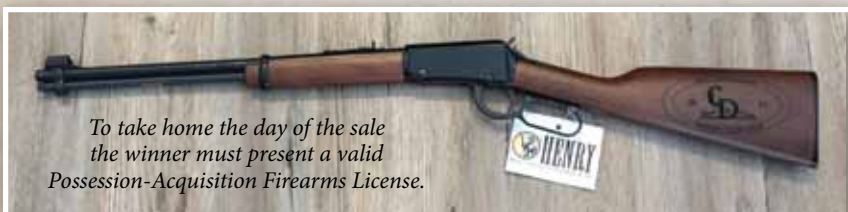

**See you on sale day! The Domolewski's - Doug, Cheryl & Stacey, Becky & Chad Lorenz**

### SIGHT UNSEEN PURCHASE

If you are unable to attend the sale give Doug, or any of the sale team a call and they will personally go over the bulls and make the recommendations that best suits your program. Your needs will be represented in a very professional and confidential manner. We will make sure you are 100% satisfied with your purchase.

## Buyer's Draw

All buyers will be entered to win a Henry 22 caliber rifle, based on lot numbers so the more you buy the better your chances! Second draw will be for a tub of Crystalyx Mineral from Ben Penner your local Crystalyx representative.

To take home the day of the sale the winner must present a valid Possession-Acquisition Firearms License.

**Crystalyx Minerals**

#### US BUYERS

We will work with all US buyers to have bulls tested, paperwork completed and delivered to the border.

#### SALE LOCATION: At the farm

1 mile East and 1/4 mile South of Taber, AB - Watch for signs.

#### HEALTH & FERTILITY

Our cows are on a Crystlyx mineral program all year long. We believe it assist in cows being bred on the first cycle and calves holding a bloom in the fall when pastures begin to dry. At weaning time the calves are exposed to Crystalyx which helps them to get onto feed with minimal stress. All bulls were treated September 2nd with Pyramid FP5+Presponse, Ultrabac 7/Somubac and Bovimectin. Bulls and fully tested, guaranteed and semen evaluations, scrotal measurements and current weights will be available sale day. Our bulls are hand-fed each day by bucket making them quiet and easy to handle.

#### DELIVERY OPTIONS

**Leaving Bulls at the Farm:** If you are not prepared to take your bull home at sale time, we are more than happy to keep them on feed free of charge up till May 1st. We highly recommend bulls be insured by the purchaser if remaining at the farm as ownership transfers to the buyer at time of sale.

**Delivery of bulls:** We provide free trucking for the bulls up to a 200 mile radius, beyond that we will work with you to have your bull delivered.

**Delivery of Heifers:** Due to a very limited corral space we require the heifers to be removed as soon as possible. If they cannot be removed sale day, let us know and we will help you make arrangements.

Can't make it to the sale?  
**Internet Bidding Available.**

Doug and Cheryl Domolewski, of CD Land & Cattle employ a complete herd health program to ensure the form, function, and sustainability of their animals. The breeding herd receives yearly preventative 8-way clostridial, 5-way viral and scour pathogen vaccination which safeguards both the cows and newborn calves. At birth, calves receive Vitamins A/D/E and Selenium along with intranasal viral and bacterial pneumonia immunizations. At spring turn out and weaning, calves are vaccinated with a 5-way viral with Mannheimia Haemolytica along with a 7-way clostridial with Histophilus Somni. Prospective buyers can rest assured that stock from CD Land & Cattle will come pre-conditioned for performance and a smooth integration into your own cattle operation.

**Lot: 1 RED C.D. CANYON FIRE 19H**

DUG 19H 2152665 08/01/2020

Red Shiloh Cannon Fire was added to the herd bull line up in 2015 to add performance, muscle mass and power. Cannon Fire has proven his ability, to not only do this, but put calves at the top end of the pen year after year. This Cannon Fire son is no exception. Here is a herd bull prospect. Soggy-made, big-hipped and agile in his mobility with the proven ability to grow weaning off at 970lbs. Here is a calf with the ability to pass on Cannon Fires legacy into his calf crop.

**Sire:**

80	720	1206	0.0	2.9	51	87	6.0	25

Here is a power bull, again sired by Red Shiloh Cannon Fire. Today, Cannon Fire remains in the top 1% of the breed for weaning weight and yearling weight. With this achievement, it is no surprise 15H comes with a weaning weight of 920lbs. His dam, 1537C is a moderate-made female, big-bodied with a pretty udder.

**Expected Progeny Differences - EPDs**

EPD's are one tool to help and try to predict each bull against its own contemporary group. A note to remember - EPD's PREDICT group average and offspring's performance, they DO NOT predict individual performance or weights. They are a value to help predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed. The EPD numbers will change as more data is collected and are never 100% accurate.

Look at the EPDs, but be sure to view actual birth and weaning weights and come look at the shape and size of the bull. We would like to discuss your needs on your operation, go over the bull and the history behind the bull and help you select the sire that will benefit your operation the greatest.

*Lot* 3 **RED C.D. NORTH 6H**

DUG 6H 2152610 02/01/2020

**Easy Calving**

A heifer bull with added punch. North Country is a complete calving ease bull. Crossed with the 11B cow, we not only have a calf ranked top 5% of the bred for calving ease, but added performance and growth from a moderate, easy fleshing Fully Loaded female. A big middle calf with an attractive herd bull head but comes with calving ease built in.

**Heifer Bull** - Here's pedigree that screams heifer bull. The sire's mother from the Firfly line were true calving ease with offspring staying under the 80lb mark. Several females from this family remain in the herd, and other females have been sold into purebred herds. The bull calves have been sold as heifer bulls with great success. 244H's great grandmother was an N cow (2003) which we just shipped this last fall, proving longevity. This Country Boy can get the job done.

**Heifer Bull** - This Brute bull, like his brothers, does not miss. The calving ease is in his makeup of Brute puts the calves in around the 70 pound range. On the Dam's side you go back to Chuck Norris who really shone when it came to great feet and udders.

## Sale Terms & Conditions

**Terms:** Terms of the sale are cash or cheque and all settlements must be made on sale date. The right of the property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes:** In case of disputes, bidding will be reopened between all parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**Announcements:** Errors or changes discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over printed matter in the catalogue.

**Certificate of Registry or Recordation:** A certificate of Registry or Recordation, where applicable, duly transferred will be furnished to the buyer for each animal after settlement has been made.

**Liability:** Perlich Bros Auction Market Ltd is acting as agent only in this sale and is not liable in any manner whatsoever for any representations made by the seller. The purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

Magnum 204E runs an average of 82lbs birth weight on his bull calves. We purchased the grandfather, Red U-2 Magnum, from the U2 sale in 2016. We always say that a good herd sire should out produce himself and that was the reason we kept 204E. We've been extremely happy with our decision. The calves are always a moderate birth weight but wean off in the top half.

Another red carrier calf. 4E comes with an exciting maternal pedigree. The 20S cow is moderate in her make up, producing calving ease, low birth weight calves with moderate bone structure and extended front ends. With Rob Roy in her pedigree it's no surprise she produced some good ones.

Congratulations to  
Marty Penner  
Grand Champion Heifer

Here is a moderate birth weight February calf that weaned off very well. If your thinking of adding cross breeding into your cows and wanting to retain heifers look here. There is great growth to this guy.

## Hybrid Yearling Bulls

**Lots 75-78** We got into the hybrid program a few years back for our commercial customer wanting the cross in their replacement heifers and steers. We feel that the Angus/Simmental cross is a perfect way to get the consistency and maternal strength of the Angus with the muscle mass

and performance of the Simmental thrown in. All hybrids and sired by the same Simmental bull we used on our purebreds. BLCC Mr. Circuit Breaker (inset) is a very thick, good-footed sire that can get out and travel extremely well.

## Two Year Old Bulls

**Lots 79-90** These two-year-olds are all bulls we used last year in both our purebred and commercial heifer program. So far the calves have been easily born at 72 - 80 pounds. Many of these first calf heifer pairs are offered up in this sale, and we will let the product speak for itself. Here's a great opportunity to have a look at the proven product to reassure your confidence in your purchase.

**Virgin Bull** - This Simmental bull has a ton of performance and style, a straight dark red color bull with a great hair coat. Looking to add the pounds in the fall to your calves or wanting outcross replacement heifers have a very good look at this guy. He is extremely good-footed and comes with a great disposition.

## Commercial First Calf Heifer Pairs

Why not skip the midnight checks, worries of a calf not sucking or losing it. Here is the ultimate way to calve heifers - and the proof is shown before you at this sale. Some of the sires to these calves are available for sale in Lots 81 - 83. December 2nd heifers were ScouGuarded and treated with Bovimectin. The ScourGuard booster was administered on December 21 along with Cattlemaster Gold FP5 and Ultrachoice 8, as well as the heifers have a constant supply of Crystalyx Mineral. Here is the perfect way to start a herd or boost your present program. The CD heifers are all home-raised.

### *Lot:* **85** 10 STRAIGHT RED ANGUS PAIRS

### *Lot:* **86** 10 RED ANGUS/SIMMENTAL PAIRS

### *Lot:* **87** 10 STRAIGHT RED ANGUS PAIRS

### *Lot:* **88** 10 STRAIGHT RED ANGUS PAIRS

*Consigned by Kast Ranching*

All these heifers have been purchased from the home raised heifer pen of Cam Morris.

### *Lot:* **89** 13 SIMMENTAL/ANGUS PAIRS

*Consigned by Ben Penner*

The Penner consignment of black Simmental/Angus cross, which comes from a one owner herd as well, and are due to calve from February 15 - March 15. There is a total of 13 heifers and the number of pairs at the sale will be determined by how many calved at that time.

### *Lot:* **90** OPENS

*Consigned by Tall Land & Cattle*

Tom & Darla have never disappointed us with the quality of open heifers they have offered up for our sale. They are a Red Angus cross heifer, sired from CD Land & Cattle bulls and coming from a closed herd. These females have been treated with Ultrabac 7, BoviShield Gold One Shot and Ivomec. The first of March they will be boosted with Ivomec and palpated and weights will be available sale day. You can feel very confident when adding these replacement heifers to your herd.

### *Lot:* **91** OPENS

*Consigned by Cam & Lynn Morris*

We are very excited to have the addition of open heifers from the reputable cattle herd of Cam & Lynn Morris. The Morris's pride themselves in purchasing top quality livestock and it is shown in this lot. The heifers have had two doses of Inforce 3, Ultrabac 7 / Somubac, Bovi-Shield Gold, and Ivomec in the fall. At time of printing they weighed 720lbs so should be around 800lbs by sale time and they will be palpated before the sale. Another fantastic offering of open heifers to build your commercial herd.
