Ranch Location: Pincher Creek, Alberta  
 Mailing Address: Box 56  
 Pincher Creek, AB T0K 1W0

**www.yarrowcreekranch.com**

Dennis & I are proud and excited to offer you these 42 sound functional bulls today! These bulls must be able to perform in your ranch conditions. They are quiet as we pail feed their grain ration & spend time walking in the pen with them. We switched to a pellet ration this year (Bulls Eye Feeds) to provide a very consistent chelated mineral ration and we still provide free choice hay. We start these boys slowly after weaning and they pretty well max out at time of pictures. We gradually move them off of pellets and the majority of the bulls will be on a strictly forage ration by the time we deliver them to your yard; so in perfect condition to adjust to breeding on grass. We DNA parent verify, semen test and provide you with all the EPD information you are looking for. We also work hard at A.I. and herd bull selection, matching them carefully to our Mama cows. To our neighbors and friends who help with processing and cooking – a big Thank-You. We figure at least 20 people help get all the chores and jobs done throughout the year and for this purebred sale. A BIG Thank-You TOO to our customers for your support and continued interest in our program. We may be small but we have good stock. Linda's blacks are DANDY. I know we say this every year but truly this IS the BEST set of bulls yet, that we are bringing to town. Our females are truly showing their strengths. Stop by the farm or come to the sale.

Video's of the bulls & the 2020 Catalogue are available on our website: [www.yarrowcreekranch.com](http://www.yarrowcreekranch.com)

Hope you all have a good calving season!

Enjoying the grandsons

 Check out all the **BULL VIDEOS** on each of our websites!

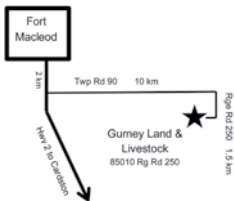

## GURNEY LAND & LIVESTOCK

Wes & Carolyn Gurney

**Ph: 403-553-3856 Cell: 403-308-2473**  
**wes@gurneyangus.com**  
**www.gurneyangus.com**

Ranch Location: Fort Macleod, Alberta  
 85010 Range Road 250  
 Box 1916, Fort Macleod, AB T0L 0Z0

Welcome to the 2020 annual bull Sale! We'd like to take this opportunity to acknowledge our customers for supporting our program. We may not be the biggest or fanciest outfit selling bulls, but we appreciate everyone that has stopped in for a visit, attended our sale, view our catalogue on line and to those who have purchased from us. You are all important to us and help Carolyn and I get out of bed at 2 am in minus 35 degree weather to check cows that are calving. You are the reason we do what we do. So thank you very much for your support and interest.

We have a very strong set of bulls coming to town this year, ones that we're very proud of. They represent what we are striving to produce: docility, moderate birth weights, performance and maternal cow-making abilities that will add longevity and profitability to your cow herd. We feel that we have the bull (or two) that will meet your needs, whether you need calving ease, power and performance or multi trait qualities that will enhance your cow herd.

Carolyn and I invite you to stop by anytime between now and March 18th to look the bulls over. After this time they will be moved to Perlich Bros. Auction Mart in Lethbridge. We also want to remind you that we will be hosting an open house on March the 13th and 14th. If you have time stop in to visit and enjoy some hospitality and look the bulls over prior to the sale. We look forward to seeing you on Friday March 20, 2020 at Perlich Bros. Auction Mart in Lethbridge Alberta.

## BULL MANAGEMENT

### Yarrow Creek Farm & Ranch

We are now pre vaccinating and using Quiet Wean nose tags prior to weaning with fantastic results. Bulls were weaned on Aug 31, 2019 and gradually introduced to a oats & barley ration. We slowly introduce them to a pellet ration developed specifically for growing bulls from Bull's Eye Feeds and at all times provide free choice hay and lots of straw. We are really happy with the development of the bulls on the pellet ration

## HERD HEALTH

The Fort Macleod Veterinary Clinic is pleased to provide Veterinary services to Yarrow Creek Farm and Ranch. They have a well-developed herd health program. All breeding females receive an annual vaccination with the Express line of vaccines ensuring some of the best protection against IBR, BVD Type 1 and 2, BRSV and PI3 as well as a complete scour vaccination protocol. Calves receive vaccinations at birth (Inforce) and at weaning calves are properly vaccinated with Pyramid 5 Presponse and a 7way Clostridial Somnus vaccine. Breeding females are boosted prior to breeding with the Express line of Vaccines. The herd receives routine deworming and ectoparasite control. This year all Bulls entering the sale will have received their second shot of Fusoguard to aid in the reduction of Foot Rot. You can be confident that the Bulls purchased from Yarrow Creek Angus come with a solid health foundation. All cows and heifers receive Scour Bos annually  
Dr. Bruce Kostelansky; DVM

## BULL MANAGEMENT

### Gurney Land & Livestock

All cows are run under commercial conditions, meaning the calves get no special treatment like creep feed and the cows are wintered on pasture. The bulls were weaned on September 13th and Herd Health protocol (below) was followed. Bulls are fed 1% of their body weight of pellet ration from Bullseye Feeds and a mix of 2nd and 3rd cut alfalfa silage.

## HERD HEALTH

The Fort Macleod Veterinary Clinic is happy to provide veterinary service to Wes and Carolyn Gurney. We are involved with all of Gurney's operation including breeding soundness evaluations. Currently all calves receive vaccinations at birth (Inforce) and a 5 way viral modified live vaccine with Pasteurella and a 7 way Clostridial Somnus vaccine at weaning (Pyramid 5 with Presponse and Fermicon 7). All bull calves have received treatment for both ecto and endo-parasites. Bulls will also have received their first dose of Fusoguard to aid in the prevention of foot rot.  
Dr. Bruce Kostelansky; DVM

# SIGHT UNSEEN PURCHASES & SALE DAY CONTACTS

<b>Perlich Bros. Auction</b>	<b>403-329-3101</b>

Plainly said, this bull has capacity. I tend to pick phenotype 1st. Must have the deep flank, thick rear end, flat top, smooth shoulder & good feet, angle & claw. Then I look at EPD's. This guy was easy to select at Peak Dots Fall 2017 sale as he had these traits all covered. Performance data: Avg Male calf 88#, Avg Female Calf 84#, BW ratio 92 and YW ratio 105, Topsoil has a 75 BW with a CE+2, MCE +9, he will work great on cows. To date he remains sound and free moving, nice to be around and an outstanding fertile sire. His progeny will pound the scale down on your sale day.

RED BAR-E-L LEADING LADY 97P

Our new heifer bull selection was chosen not only for his sire but for his awesome dam. Red Bar E-L Leading Lady 7C; awesome udder, perfect feet, perfect package, our kind of dam. The sire Red WPRA Right Turn C521 was a bull Dave Longshore bought a semen package on after admiring the calving ease bull combined with awesome performance. Right Turn is co-owned between Triple S, Bar E-L, Welsh Prairie Red Angus, Janzen Red Angus and Allisons. So far the sons at our place and Allison's birth weight are averaging 83 lbs on males and 77 lbs on heifers. But the real surprise is the performance. These sons weaning average was 715 lbs on Aug. 18 and that's with no creep feed. Heifers are also square and thick.

We searched for a power bull and we found this Red U2 Unanimous son at Wheelers Stock Farm. He is an outcross bull with a black dam sired by the Canadian Show Bull of the year in 2011 DMM Creed 75W. The sire Red U2 Unanimous 113B was one of the high sellers at U2 ranch at \$51,000. With the combination of Unanimous and Creed nothing but power but the best part is both pedigrees come from awesome cow families U2 Anexa and Larkaba, and that's what is the most important here at Yarrow Creek. Don't be fooled these Unanimous sons will have some punch.

We were one of the first seedstock producers in Canada to use Redemption and boy am I glad we did. The females are unbelievable deep square moderate framed and with perfect udders. Well we came across one of our Redemption sons at a bull customer's place that we were very very pleased how he had matured and filled out; so we purchased him back to bring a little bit more Redemption genetics into our herd. Exemption had a WW ratio of 115 and was one of our high sellers in 2015. Top 9% BW, Top 15% WW, Top 9% YW and Top 15% for CE. Were happy with the extra progeny he has left us. Male calves avg 86 lbs and females avg 78 lbs.

We will call him stretch. His length from rib to flank is remarkable and an extra plus with a beautiful smooth front end. Gyor will sire those shapely long bodied feeder calves that are in high demand. His mother, 14A, is a thick deep bodied elite premier dam. She Avg's 86LBS on male calves and 72LBS on female calves.

Another Generation son that follows the same pattern as his pen mates. A heifer bull with an outgoing personality, big topped, deep ribbed and good hair. Birth weight 77LBS and the 2nd highest weaning weight bull at 792LBS. #2 gaining bull at 3.15/day. He did not waste any time. His Dam 105D, also brings extra calving ease to the table.

Dam KFC 1313Y has only had bull calves so maybe the lucky buyer will get the same. Her bull calf BW's have averaged 88LBS. She is one of Linda's favourite cows as she has a great disposition, good udder and good feet. 62G holds a BW in the Top 8%, Milk in the Top 20% and CE in the Top 10%, great numbers for a true heifer bull.

## CALVING EASE

<b>1 star</b> ★	means a bull is recommended to be used on cows
<b>2 stars</b> ★★	means the bull should be used on cows or larger type heifers
<b>3 stars</b> ★★★	means there should be few problems when using these bulls on first calf heifers.

Remember to take into account your own cow herd management, genetics, environment, feeding conditions, etc. They will have a BIG influence on your birth weights.

Griffon Red Ale 1946G is a spitting image of Rickards Red. I'm confident this bull would work on larger framed heifers and 2nd calvers. The dam 1519C has only given me bull calves and they have a BW avg of 84 lbs. Check out his video

South Country 1949G (aka Dougy) We picked up this dam at the Southern Alberta Chinook Classic held annually by the Southern Alberta Angus Club. She is from the CD Land and Cattle operation. We really like her phenotype and had a whopping set of EPD's. Also Becky did a hell of a job getting her ready for the sale. She is out of the Cannon Fire high selling bull from the Shiloh operation. The sire North Country 71E seems to have done a good job on his calves averaging 74 lbs.

Solid big nuted Rickards Red son. YCR GTO 1951G is a little special to me; out of our 1520C (stubby) cow whom a couple of people tried really hard to get me to consign her to a couple of female sales and I just couldn't let her go; she was just too too good; and the kind we strive to produce. You should see her bull calf this this year a full brother. Her other heifer calf avg 60 lbs just this guy was a little bigger BW. Just love the style of these types of bulls and especially when you know it's packed on the maternal side.

On behalf of Bullseye Feeds, it is a pleasure working with Gurney's and the Lastuka's. Their attention to detail is evident throughout their operation and their contributions to the angus breed. The bulls feeding program is built to maximize forage utilization and gut health. The bulls are developed on a balanced TMR

that promotes lean muscle growth. Organic minerals are also used to ensure proper immune function and increase overall health of bulls. Do not hesitate to call with any questions or inquiries about the nutrition of the sale bulls. Best wishes to both families on sale day.

---	--

Trying to find the perfect A.I Sire to push our program to a higher level, I took the suggestion from Stan at Millennium Genetics and tried Dually on some select cows. Looking back now the only thing I should have done different was A.I more cows to him! Dually is flat out impressive! Powerful performance ranking in the top 1% for both WW and YW EPDs with a modest Birth Weight and Calving Ease package. Dually has that soft, soggy look with added dimension and muscle expression. Cherry on the top for me is his outstanding maternal potential with top end \$Weaning, Docility and Heifer Pregnancy values. Now deceased, these genetics will be in high demand. Don't miss out on this opportunity to get these high impact genetics into your herd.

Known for his strong maternal qualities The Upward daughters now in production in our herd have been exactly what you'd expect from Sitz Upward 307R in the pedigree. Soft made with very good udders and feet. They are very productive cows that are easy to work with and are very maternal in their make-up. A real herd-building sire that will provide reasonable calving ease, growth and efficiency, with added soundness and disposition with end product quality.

### SELLING 50% POSSESSION AND 50% OWNERSHIP

If you are looking for the complete bull that checks off all the boxes, then you have found him! Just look at his numbers! Top 2% for Weaning Weight, top 1% for Yearling Weight, top 1% for Milk, top 1% for Total Maternal and top 10% for Calving Ease. By far the best bull we have produced here at the farm. His Sire Enhance has 18 EPD traits in the top 25% of the breed, including calving ease and carcass merit. 3G's Dam 11E did a tremendous job on her first calf. She is backed by some powerful maternal and carcass quality animals in her pedigree. We are expecting great things from this young cow and bull in the future.

We are always trying to improve our product for you the rancher. Many have asked for older bulls at sale time, so we tried something new to see how it would work. The result is 94F, the only long yearling on offer. He resembles his sire in almost every way. 94F has tremendous thickness, soundness of bone with good foot structure. His pedigree is full of consistent producing dams and sires. He has that herd bull presence about him. Actual weaning weight of 965lbs on Aug.31/19 Then 1385 lbs on Dec.30/19

### - TERMS & CONDITIONS -

**Terms of Sale:** The terms of the sale are cash or cheque, payable at par at the sale location. No release of livestock will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for which payments have not been received prior to departure time.

**Certificates of Registry:** A certificate of registry will be duly transferred to the buyer by the breeder for each bull after complete and full payment has been made.

**Cattle Inspection & Identification:** CCIA tags will be in all bulls. All bulls will be available for inspection prior to the sale.

**Fertility:** All yearlings will be scrotal measured and palpated prior to the sale and all yearling purchases will be semen tested prior to delivery. All bulls will meet or exceed breed standards.

**Breeding Guarantee:** We guarantee to provide you with a sound breeding bull, capable of passing a breeding soundness evaluation performed by a licensed veterinarian. In the unlikely event of any dispute, the regular terms and conditions that are standard with the Canadian Angus and Canadian Simmental Associations shall apply. Customer satisfaction is paramount to us.

**Delivery of Bulls:** We will offer free delivery within 200 km. of home; after that at cost. Delivery on the yearlings will commence early April unless prior arrangements have been made with the seller.

**Post Sale Bull Development:** We will winter your yearling bull purchases free of charge until April 1, 2020. After that, feed at cost of \$3/head/day will be charged. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers' risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

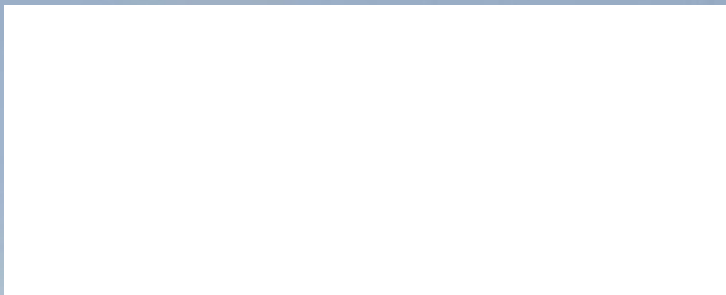

**Bull Insurance:** Ownership risk to the purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available at the clerk's desk from our appointed representative on Sale Day.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of the buyers; neither the sale staff nor the owners assume any responsibility in this manner and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

**Announcements:** Any changes from information in this catalogue will be announced from the auction block. Such changes will take precedence over the printed matter in the catalogue and therefore buyers are cautioned to pay close attention to any such announcements.
