ANNUAL PRODUCTION SALE

RED ANGUS • BLACK ANGUS • SIMMENTAL • HYBRID  
OPEN HEIFERS • FIRST-CALF HEIFER PAIRS

SATURDAY, MARCH 9, 2019 • AT THE FARM  
TABER, AB

LUNCH AT NOON  
SALE AT 1:00

# Welcome

We are very excited to present to you the line up of bulls, heifers, and first-calf heifer pairs that we have on offer for you at our 12<sup>th</sup> anniversary sale. We went through one of the longest winters we have seen in some time last year, whether you were calving in early January or late March, Mother Nature was playing a brutal role. It took a lot of extra bedding and feed, but the cattle came through strong and it shows in this year's line up. We have grown our two-year-old program and are thrilled about the addition of the black Simmentals this year.

As for the family side of things, we were overjoyed as Becky & Chad Lorenz exchanged wedding vows at the end of June. It was a beautiful outdoor wedding held at the Lorenz Ranch that could not have gone better if we had ordered it. From Becky riding in on the horse drawn team to the preacher finishing the ceremony just in time for everyone to congregate in the sale barn to miss the rain, it was all great. The couple have purchased a farm west of Innisfail where they have started their new journey together.

The only cattle show we entered this year was our favorite, the Medicine Hat Pen Show in mid December. It is always a great time to visit with fellow exhibitors, customers and friends whether touring through the barns or attending the Friday night steak fry. Friday night we were very excited to win the Reserve Champion Purebred Breeders Commercial Open Heifer Class. A huge thank you to T-Down Trailers Ltd for their sponsorship and to everyone that voted to give us a double win on Saturday. Our calendar year bull, Red CD Big Time 6F, won the people's choice for that class and Red CD Dawson 254E was selected as the Yearling Bull Cattlemen's Choice. Both of these bulls are available in this year's sale.

Again, the sale is held at home. The facility is heated, and all bulls and females will be on display for you beside the barn the day of the sale. If you are unable to attend the sale it will be broadcasted live through DLMS for your viewing and bidding pleasure. At any time before the sale drop by or give us a call, we would love to take the time to discuss your purchasing needs and the animals that will work best for you and your operation.

Join us Saturday, March 9th at noon for lunch, the sale will start at 1:00pm. With a shortage of cattle, ranchers using less feed than last year, and the weather cooperating much better, it looks like we may see a steady increase in the cattle market. Therefore, it is more important than ever, when purchasing your herd bull, open heifers or cow replacements selecting *Quality Counts* when selling your calves in the fall!

**See you on sale day! The Domolewski's - Doug, Cheryl & Stacey, Becky & Chad Lorenz**

# Buyer's Draw

All buyers will be entered to win a Henry 22 caliber rifle, based on lot numbers so the more you buy the better your chances! Second draw will be for a tub of Crystalyx Mineral from Ben Penner your local Crystalyx representative.

*To take home the day of the sale winner must present a valid Possession-Acquisition Firearms License.*

# Quality Counts

## 12<sup>TH</sup> ANNUAL PRODUCTION SALE

RED ANGUS • BLACK ANGUS • SIMMENTAL • HYBRID  
OPEN HEIFERS • FIRST-CALF HEIFER PAIRS

### Sale Day Information

**SALE LOCATION:** At the farm

1 mile East and 1/4 mile South of Taber, AB - Watch for signs.

#### SALE DAY PHONES

#### ONLINE BIDDING

DLMS Mark Shologan .....780.699.5082

#### INSURANCE

Stockman's Cheryl Brown .....403.601.3460

#### US BUYERS

We will work with all US buyers to have bulls tested, paperwork completed and delivered to the border.

#### SIGHT UNSEEN PURCHASE

If you are unable to attend the sale give Doug, or any of the sale team a call and they will personally go over the bulls and make the recommendations that best suits your program. Your needs will be represented in a very professional and confidential manner. We will make sure you are 100% satisfied with your purchase.

#### HEALTH & FERTILITY

All bulls were treated on August 24 with Bovishield Gold 5 and UltraBac 7 Somubac then on December 22 with Bovimectin pour on. All bulls are fully tested and guaranteed. Scrotal measurements, semen evaluations and current weights will be available on sale day. All our bulls are hand feed each day by bucket making them quiet and easy handling.

#### DELIVERY OPTIONS

**Leaving Bulls at the Farm:** If you are not prepared to take your bull home at sale time, we are more than happy to keep them on feed free of charge up till May 1st. We highly recommend bulls be insured by the purchaser if remaining at the farm as ownership transfers to the buyer at time of sale.

**Delivery of bulls:** We provide free trucking for the bulls up to a 200 mile radius, beyond that we will work with you to have your bull delivered.

**Delivery of Heifers:** Due to a very limited corral space we require the heifers to be removed as soon as possible. If they cannot be removed sale day, or very shortly after, let us know and we will help you make arrangements.

#### EXPECTED PROGENY DIFFERENCES - EPDs

EPD's are one tool to help and try to predict each bull against its own contemporary group. A note to remember - EPD's PERDICT group average and offspring's performance, they DO NOT predict individual performance or weights. They are a value to help predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed. The EPD numbers will change as more data is collected and are never 100% accurate. Look at the EPDs, but be sure to view actual birth and weaning weights and come look at the shape and size of the bull. We would like to discuss your needs on your operation, go over the bull and the history behind the bull and help you select the sire that will benefit your operation the greatest. 2018 breed averages are:

BLK ANGUS AVE's 2019	BW 2.2	WW 46	YW 79	MILK 21	TM 44	CE 3.2	MCE 7.0
RED ANGUS AVE's 2019	BW 1.2	WW 35	YW 59	MILK 19	TM 37	CE 2.5	MCE 5.6

**BOUCHARDLIVESTOCK.COM**

Here is a calf that puts together so many characteristics of a future herd bull. He comes with tons of mass, natural muscle shape and had been a standout in terms of his performance from a very young age. CRSL Prime Time has left his mark in our program, producing complete, deep-made, sale-feature bulls and stylish, big-middled females that have gone back into the cowherd. 6F's dam is a super attractive, easy-fleshing female that is starting to build a reputation for producing unique, stand out individuals. Here is a bull proven for performance with a weaning weight over 1,000 lbs. This calf was one of the highlights in our Medicine Hat Show string and we were honored to have him chosen as the 2018 Cattleman's Choice Calendar Year Bull.

Here is a calf with a very strong pedigree. Red Wrights By Design has spent a number of years in our herdbull line up and it's because of his ability to produce complete, balanced and deep-bodied calves like this. 24F's dam has, more than once, created sale-feature-worthy calves with both bulls and females. Red Northline Rob Roy in her pedigree has a reputation for producing functional momma cows.

Dam: RED NORTHLINE ROB ROY 122K 1035334  
RED C.D. R R SENSATION 32'10  
RED C.D. CANDY 5'05 1290546

Here is a calf that is more moderate in his make up, but definitely not one to overlook. His dam has become one of the top-producing females in our program creating bulls that have found their way to the top of the feature pen year after year and females that we have been so excited to add back into our program. Here is the calf with one of the strongest maternal pedigrees. We would recommend keeping his daughters for replacement heifers.

RED C.D. SELENA 39'09 1490709  
RED C.D. SELENA 1'06 1329889

A moderate birthweight calf that proved his ability to grow, weaning off at just under 1,000lbs. His sire was purchased to be used on heifers but after proving he was capable of producing a strong first calf crop, he has been used heavily on cows producing long-spined, moderate birthweight calves.

It is so rewarding to be able to start the heifer bull line up with a true sale feature like this calf. Here is an attractive-made, fancy-profiling calf that is smooth in his makeup and complete in his appearance. Not only is this calf put together for calving ease, his pedigree is packed full of sires with strong maternal backing. Red ACC Legend 1D is out of a top-producing cow in the Anderson program and on the top side of the pedigree, Red CD Barn Burner 39A was not only out of an exceptional female known for a great foot and strong udder structure, he himself has created a strong lineup of daughters that have gone back into our program.

Sire: Legend

Red Glesbar Leah 103A was purchased from the Glesbar dispersal sale and ever since has produced a sale feature bull. It is no surprise this young cow has earned the title of Premier Dam with her first four calves. This stout-made, big-middled, wide-based Legend son is put together so right in so many ways.

# Simmental Yearling Bulls

JDF Red Tank 87D was purchased from the Northern Classic Simmental Sale in 2017. We were very excited about his sire NUG Royal Red 324A and felt that this bull had all the qualities we admired. Royal Red has put some natural thickness into both the red and black Simmental cattle.

## Lot: 58 CD RED TANK 811F

DUG 811F PG1240967 18 Feb 2018

Tank, profiling very much like his sire, is about as soggy, thick, and stout as you can ask for in a bull. A little smaller Simmental bull from a more moderate-framed cow. The dam has a very good udder and considering this calf was only 7 months when we weaned him and he weighed 860 pounds, you can for sure say he has performance.

Out of a young, hard working female and in the same sire group, this calf comes with slightly smaller bone and that same calving ease look. His sire, KWA Odyssey, is ranked in the top 3% of the breed in calving ease and top 5% of calving weight trait for the breed.

## Hybrid Yearling Bulls

We started the Hybrid program because of interest from the commercial rancher wanting a cross into their replacement heifers as well as the steers they sell in the fall. We start with a Red Angus cow base for the consistency and maternal strength that Angus is known for. Each of these bulls presented for sale are sired by JDF Red Tank 87D, the same bull used in our purebred Simmental program, a bull about as soggy and easy fleshing as they come. This is a cross to give you the best of both breeds - moderate frames, predictability, muscle mass and total performance. Now that we have been into this program for a few years we have seen much success with these Hybrids on a wide range of cow herds.

**Virgin Bull** - Here is the type of bull that easily earns his way into the feature two-year-old bull spot. He is a great combination of a strong pedigree made up of proven genetics and is phenotypically the right type. The Firefly cow family is deeply embedded in many of our pedigrees and continues to become highlights in our cowherd because of their big-bodied appearance and good udder structures. CRSL Dawson was brought into our herd bull lineup from Wisconsin and has put not only females back into the cowherd but has built herd bulls like CD Dawson 78C. Dawson has the ability to stamp his sons with an easy-fleshing, smooth-striding, big middle and attractive profiling look. It is no surprise 254E comes with an 84lb birthweight as this is a consistent trait on the top side of his pedigree. We were honored to have 254E chosen as the 2018 Cattleman's Choice Yearling Bull this December at the Medicine Hat Pen Show. We will be keeping a semen interest in this bull.

**Virgin Bull** - Here is a bull with a true herd sire look. His good hair coat, attractive profile and stout appearance really makes him a standout in the two-year-old bull pen. The Selena cow family has become a strong foundation in our cowherd because they are deep-bodied females with good udder structures. If you are looking for pounds on your calves in the fall here is the start that will get you there.

**Virgin Bull** - A thick bull with plenty of muscle shape that comes from a very good cow purchased from the Chinook Sale a number of years ago as a bred. This twin bull should produce calves in that 80-90 pound range. Red Six Mile Tuff Enuf was the 2014 Farmfair Two-Year-Old Bull Champion and the Red Angus Grand Champion Bull, he was also the Agribition Red Senior Bull Champion and the Red Angus Grand Champion Bull. We AI'd the dam and think we have found a perfect match.

**Virgin Heifer Bull** - This half brother to 915E (lot 84) is very similar in his makeup. Use as a heifer bull to help you sleep at night or turn him loose with the cows and he will get the job done. Looking for 2 bulls? Take a look at both 915E and 916E to get some uniformity from your calves.

### Proven Sires - Lots 84 - 88

These are all bulls that we used on our heifer program last year, both commercial and purebred. Many of these first calf heifers that were bred to these bulls will be selling as pairs in the sale. At this time, we have 30+ of these calves on the ground now with birthweights of 68 -78 pounds. Sleep has for sure been better this calving season, not sure if it is the bulls or the weather! Come have a look at the calves and you'll know what you are buying.

**Hybrid** - Looking for a hybrid bull to get out and travel the miles, here he is. Being an April born calf we kept him out of the sale last year. 852E is a very free-moving, good-traveling bull. He is from a purebred Simmental cow bred to a purebred Angus sire. With an 88 pound birthweight he will work everywhere.

## Sale Terms & Conditions

**Terms:** Terms of the sale are cash or cheque and all settlements must be made on sale date. The right of the property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes:** In case of disputes, bidding will be reopened between all parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**Announcements:** Errors or changes discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over printed matter in the catalogue.

**Certificate of Registry or Recordation:** A certificate of Registry or Recordation, where applicable, duly transferred will be furnished to the buyer for each animal after settlement has been made.

**Liability:** Perlich Bros Auction Market Ltd is acting as agent only in this sale and is not liable in any manner whatsoever for any representations made by the seller. The purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

*Join us on Saturday, July 27th  
here at the farm as we will be hosting,  
with Allencroft Angus,  
the 2019 Southern Alberta Angus Club Field Day.*

## Commercial Open Heifers

### Lot: 91 PEN OF 10 OPEN HEIFERS

Consigned by TALL Land & Cattle

Tom & Darla have been bringing a very consistent set of Angus cross females to the sale, and this year is no exception. This is the first cut from the Machacek heifer pen of 50, coming from a very closed herd. This functional group of heifers have all been sired by CD Land & Cattle bulls. Heifers will be palpated giving you the confidence that these girls will be a great addition to your cow herd.

### Lot: 92 PEN OF 10 OPEN HEIFERS

Consigned by Kast Ranching

Doug Kast prides himself in purchasing top quality heifer calves in the fall, many coming from CD Land & Cattle bull customers. These Angus Simmental cross heifers have been the top pick from 100 and will be palpated at sale time. These solid, stout heifers will add great value to any commercial herd.

## Commercial First Calf Heifer Pairs

Don't want to check in the middle of the night? Don't want to worry about losing a calf or whether it sucked or not? Then why not buy the proven product that you can see. These heifers were selected in the spring at breeding season for this sale and have been managed as one contemporary group. On December 10th the heifers were all treated with 8-way, ViraShield 6 +VL5HB, Ivomec, and ScourGuard, the birth dates and weights on all the calves will be available on sale day, or earlier at [cdlandandcattle.com](http://cdlandandcattle.com). These females will be sold in groups of 5 with the option to take the full pen of 10.
